# Boom 2

The Root Of All Good Audio

Introduction

Boom is a system-wide volume booster and equalizer that makes everything sound louder, clearer and better for over 1 million Mac users. First released in 2011 to rave reviews and critical acclaim, Boom won Macworld's Best of Show 2011 while simultaneously transforming the audio coming out of user's Macs. The new Boom 2 is the second chapter in Boom's award-winning story so far.

Boom 2 is an all-new app built from the ground up to take advantage of the latest OS X Yosemite. The new upgrade introduces several features that offer users a variety of pro-like audio options in order to have complete control over how their Mac sounds. It also comes with a companion remote app for the iPhone and iPad that can control Boom 2's features and also that of other select media player apps for Mac.

- Auto-Calibrates Itself According To The Type of Mac
- Designed for OS X Yosemite Along with 64-bit Compatibility
- Powerful System-Wide Volume Boosting
- Advanced and Precise Equalizer Controls
- Remote Companion App to Control Boom 2
- All-New Audio Effects for Enhanced Sound Quality
- Intelligent File Audio Boost

Calibrates itself according to the type of Mac

Boom 2 customizes itself to suit the Mac it's running on. Simply put, it tailors itself to run perfectly on any Mac as different models have a different level of audio delivery.

Unique and oozes of personality.

Designed for Yosemite and 64-bit compatibility

Boom 2 is designed, engineered and imagined just for Yosemite and supports the 64-bit architecture for maximum performance and efficiency.
Future-proof and raring to go.

OS X Yosemite

Powerful system-wide volume boosting

Boom 2 makes everything coming out of a Mac's speakers sound louder, clearer and better. Spotify, iTunes, Netflix, YouTube and other services come alive with every minute detail being audible.

Loud, Louder, Boom!

## Advanced and precise equalizer control

Boom 2 offers equalizers for both amateur and pro users alike. Whether it is the 10-band equalizer or the more advanced controls, finer audio control is guaranteed. The additional Frequency constrain controls allow enthusiasts to go all-out.

Tweak unlimited.

Remote Companion App To Control Boom 2

Boom 2 has a cool remote companion app called the 'Boom 2 Remote', which can be downloaded from the iTunes App Store for the iPhone and iPad. With this app, users can easily remote control Boom 2's features and manage playback of VLC, QuickTime and iTunes on Mac from the comfort of their seat! New Age Boomin'!

All-New Audio Effects

Boom 2 introduces 'Ambience' and 'Fidelity', two cool new audio effects with plenty more to follow. When ON, they deliver an acoustic experience akin to actually being there when playing. Feel the Audio.

Ambient

Be alive and feel the music around you with Ambience. Hear notes from every single angle and corner, making it a live performance like no other
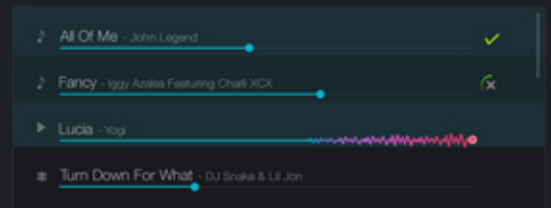

Fidelity

Be here, there and everywhere with Fidelity. Listen to crisp and sharp tones while being surprised at how clear your Mac sounds!

Intelligent File Audio Boost

Boom 2 makes media files sound much louder and clearer for consumption elsewhere like on Mobiles, Mp3 Players, iTunes Sync and much more. It also analyses each file before recommending an optimal level to boost it up to.
Portable Boomin'!

Price & Availability

Boom 2 is all-new app that can be purchased for $14.99 from the Global Delight Webstore and the Mac App Store. Students can avail a special discounted price of $9.99 while existing Boom 1.x users are eligible for 50% discount on our store. The 'Boom 2 Remote' can be downloaded from the iTunes App Store for the iPhone and iPad. A free 7-day trial and more can be experienced at http://www.globaldelight.com/boom

Requirements

Boom 2 works on any Mac running OS X Yosemite (10.10 and later) and runs even better on processors that support the 64-bit architecture. It is also fully localized into 10 international languages - Dutch, French, German, Italian, Japanese, Korean, Portuguese, Russian, Simplified Chinese and Spanish
