1. Photo Delight

Photo Delight is an ultimate color-splashing app for iPad. It lets you create masterpieces out of ordinary snaps with a remarkably intelligent feature like Smart Mode that brings uncompromising great looks to your photos.

Using Photo Delight you can recolor the desired parts of your photos producing stunning results with practically no effort at all.

It is so much fun to use that you might find yourself putting photos onto your iPad just to use it. Whether you want to make your family photos look better or simply have some fun with images, Photo Delight is the app for you.

The gorgeous interface design keeps the focus on working on the image instead of fooling around adjusting settings. It all just seems to work automatically.

Main features:

- Import photos directly from your Facebook albums or iPad library.
- No worries over color spill with intelligent feature like Smart Mode
- New iPad retina compatibility
- Ability to import photos of up to 20 Mega Pixels
- Tweak the brush to adjust size, softness, hardness and opacity.
- Correct accidental coloring any number of times with unlimited Undo
- Share your images on Facebook, Flickr, Twitter, Photobucket or Email them.
- Save multiple drafts to resume your work later.

2. Smart Mode

Smart Mode is the brain of Photo Delight. It takes care of color spill by being intelligent. It produces striking images without having to fret over the zooming and erasing along the edges.

The app detects the color you want to highlight just by your touch on that part of the image. It continues to reveal only that color in the image wherever you move your finger without lifting it.

Photo Delight comes with a simple tutorial that is playable from within the app. After watching the short tutorial, you'll know everything you need to get started.
