

## Global Delight Introduces their 5.1 Audio Browser Extension For Netflix: A New Way to Enjoy Cinematic Sound on macOS

Udupi, India - 6th April 2023: Global Delight, a leading technology firm has developed a 5.1 multichannel audio browser extension for Netflix. This extension will take the Netflix desktop experience to the next level. The 5.1 extension for Netflix promises a better immersive sound, making the listening experience more realistic.

The extension can be downloaded for Chrome on the Chrome Web Store [here](#), and for Safari on the Mac App Store [here](#). The 5.1 extension for Netflix is completely free to download on macOS, and this opens up the opportunity to enjoy cinematic surround sound with Netflix on your personal computer.

To reap the complete benefits of the new extension, Global Delight recommends downloading [Boom 3D](#). This is an audio enhancer app that is available for Mac and Windows.

By downloading [Boom 3D](#), and coupling it with the new extension, **you can enable 5.1 surround sound on any headphones.**

The 5.1 extension only works on compatible content, and the extension also enables the option to enjoy compatible content in 1080p Full HD (this requires sufficient internet bandwidth).

"We always come up with innovative technologies to double-up the entertainment experience of the user," says Ramachandra Acharya, CTO of Global Delight. "Our team has worked hard to make this extension an unparalleled audio experience. With this extension, users will feel the thrill of action with the intensity of cinematic sound, and we are all excited to hear about their experience".

The new 5.1 extension for Netflix will change the way people experience Netflix on their Macs. It is one of the significant advancements in the streaming industry to help people enjoy excellent audio quality on macOS.
