Introduction

Boom is a system-wide volume booster and equalizer app that is designed to make everything sound louder, clearer and better! Since its release, Boom has always continued to be in the limelight after winning the Macworld's Best of Show 2011 while it simultaneously remained as an inseparable part to enhance audio on Mac.

The successor of Boom, Boom 2, pooled vital features to give the users louder, clearer and extremely enhanced audio without investing in costly external devices.

And now, next in line to Boom 2, Boom 3D is an all-new pro audio app that delivers rich and intense audio with 3D surround sound that makes any kind of headphones sound better!

This nifty app has been engineered with some incredible features to be a great companion for Mac. The 3D Surround Sound offered by Boom 3D is powered by Global Delight's patent-pending Boom audio engine that offers a truly immersive experience on any headphones that the ears keep longing for!

- Advanced Audio effects to enhance any audio on your Mac
- 20,000+ Radio stations

Self-calibrates according to the type of Mac

Boom 3D self-calibrates according to the type of Mac to offer a genuinely personalized experience to the users.

Designed for OS X 10.10.3 and later

Boom 3D is designed and engineered to work on OS X 10.10.3 and later for maximum performance and efficiency.

3D Surround Sound

The most significant feature of Boom 3D is the patent-pending 3D Surround Sound technology, which offers an immersive virtual surround sound experience that is realistic, captivating and works on any headset!

Select Audio Output Device

From the Settings, you can choose the type of your audio output device so that Boom 3D can appropriately offer an output that sounds best.

Built-in Mini Audio Player

Boom 3D now features a Mini Audio Player with a simple drag and drop feature to add music files effortlessly.

Apps Volume Controller

Boom 3D comes with an all-new Application Level Volume Control, which helps the users to adjust volumes application wise.

Boom Volume & Controlled Boost

The newly added Boom Volume Controller along with the Controlled Boost feature offers the users a complete control over the system audio output through a neatly designed toggle bar.

Powerful Intensity Slider

The Intensity slider offers full control over the audio output, and allows you to adjust the Bass and Treble. Shove it up or bring it down until you spot your optimum level.

Handcrafted Equalizer Presets

The Equalizer Presets are re-calibrated for an enhanced audio output. They are curated to perfection for a number of genres and tastes, to match the varied choices of music. Simply put, it gives full control to the users for fine-tuning the settings and sounds as per their liking.

Advanced Audio Effects

Boom 3D re-introduces the feature that brings in neat audio effects. These effects help to enhance the audio quality of your Mac while adding a completely new perspective to the sound.

Ambience

Experience Ambience while feeling sound moving all around you with mind-blowing realism. Get an earful of notes from direction, making it sound like a live performance like no other.

Fidelity

Be here, there and everywhere with Fidelity. Listen to everything from music to dialogues to the falling of leaves with amazing detail, crispness, and clarity.

Night Mode

With just one click, Night Mode nominalizes the audio to produce sounds that aren't too loud or faint. This is perfect for action movies where certain sounds are loud while the rest are muffled.

Spatial

Be right at the center of your audio, while sound flows around you! Feel the illusion with the 'Spatial' effect; feel more realistic sound that seem to come from everywhere around you.

Pitch

Listen to your favorite tracks with its pitch a note higher or lower just like the way you love it!

20,000+ Radio Stations

Boom 3D comes with Radio that gives you free access to more than 20,000 local and international Radio stations across 120 countries!

Price & Availability

Boom 3D single user pack can be purchased for \$19.99 for the Mac from the [Global Delight Web Store](#) and on the [Mac App Store](#). It is available on the [Microsoft Store](#) for \$16.99.
