

## Camera Plus 4

---

With all great product launches come great accessories that instantly raise the level of user experience, making it an absolute joy to use.

Stepping forward to give millions of iOS users a unique and effortless way of capturing photos and videos is a totally reinvigorated and fresh upgrade of Camera Plus. It's Intuitive, Minimal and Ready to Capture that precious shot in a jiffy.

# THE CAMERA PLUS EXPERIENCE

---

Camera Plus 4.0 comes with AirSnap and is the perfect sidekick for everyday captures. Its USP is to simplify the entire capture process and condense it into a neat, uncluttered and powerful experience.

Gone are the times when a camera app included loads of unnecessary features that only a tiny fraction actually use. The new Camera Plus will delight users who are just looking to get the best capture every time. No more fumbling around.

There are modes to adjust the lighting (**LUMY**), attain clearly focused pictures (**3 FOCUS MODES**), auto photo-correction/enhancement (**PIX'D**), remote photography (**AIRSNAP**) and much more.

The big difference here is that all of these functions are now just a matter of taps and slide ups/downs. The end result is that users get to use high end pro tools that's been packages in a way that eliminates any learning curve.

*Some handpicked features to get the creative juices flowing:*

---

## AirSnap - Capture Everything. Remotely.

---

AirSnap is a truly innovative way to let users pair any two iOS devices to capture photos and videos remotely from afar. Using Bluetooth or Wi-Fi, one device is assigned as the camera and the other becomes a remote control so that nobody gets left out of captures!

With a fullscreen preview on the remote device, users also get a live view of what's in front of the camera. Now don't miss out on photos, videos and selfies involving your family, group, pets and more!

## 3 Focus Modes

---

Choose from **MACRO**, **NORMAL** and **FAR** to bring desired subjects into focus and get really sharp photos. A brilliant way of adding depth to photographs and giving it perspective

## Lumy - Perfect lighting

---

An intelligent exposure slider that adjusts the lighting perfectly according to the environment. Lumy makes sure users get the perfect brightness and lighting in photos and videos

## Pix'd - Instantly Gorgeous Shots

---

With just a tap, Camera Plus magically transforms any photo to make them instantly look beautiful

## Focus Shift Videos

---

With Focus Shift, users can effortlessly bring desired subjects in and out of focus and obscure the rest. Perfect to direct videos and give it the cinematic treatment

---

## Additional iPad Features

---

### Soft Flash

---

The lack of a physical flash in iPads makes this a must-have. This feature makes photos look like they were clicked with an actual flash, post-capture!

### Coustomizable Button Placement

---

Capturing photos and videos on an iPad needn't be difficult. Camera Plus allows for all capture controls to be right under users' fingers when shooting

*In addition, Camera Plus brings forward gorgeous Filters, text with luscious fonts, a private folder, editing options like Saturation, Temperature etc. and much more!*
